Opis

Moodpath is an optimized screening procedure for recognizing depression, specifically designed for the use on smartphones. The screening was developed in close cooperation with the Division of Clinical Psychological Intervention of the Free University of Berlin. During the screening, the smartphone will accompany the user in his daily life for 14 days. Thereby the collection of valid data points concerning mental illnesses that require treatment is enabled. Moodpath is currently being evaluated in a clinical study at a hospital in Berlin. Over the course of 14 days, participants will be asked about their physical and emotional well-being. Thereby participants reflect their own mood and can better understand the interplay of their thoughts, feelings, behaviour and body. They will receive a profound assessment of their state of mental health after the screening. Further material will help to learn more about their results and potential treatment options. Besides they will receive a summary of their results as a pdf file so that they can share it with their doctor or therapist. If needed, Moodpath can connect the client with experts in his/her area. Finally comprehensive information about depression can be found on the website.

The screenshot shows the moodpath website homepage. At the top, there's a navigation bar with links for 'Moodpath App', 'Wissenschaft', 'Für Ärzte & Therapeuten', 'Moodpath Magazin', and a language switcher for 'Deutsch'. Below the navigation, there's a large banner with a background of small icons representing various emotions and activities. The central text in the banner reads: 'Traurig, antriebslos, ausgebrannt oder ständig müde?'. Below this text, there's a brief description of what Moodpath does: 'Moodpath ist ein interaktives Screening Deiner psychischen Gesundheit und erkennt Symptome einer Depression. Nach dem 14-tägigen Screening erhältst Du eine fundierte Einschätzung Deiner psychischen Gesundheit und Hilfe zur Selbsthilfe.' It also mentions that the app is available for free on iOS and Android, with download links for the App Store and Google Play. To the right of the text, there are two phones displaying the Moodpath app interface. Below the banner, there's a section titled 'Sicherheit & Anonymität' with the text: 'Wir nehmen die Sicherheit Deiner Daten ernst.' Three circular icons below this text represent different security features: a lock icon, a shield icon, and a key icon. At the bottom of the page, there's a footer with a link to a PDF file named 'HABIT-Flyer-02-jun.pdf' and a timestamp '09:55 19.07.2017'.
